Mr. Leo D. Carl, Chairman

Society, Inc.

Dear Leo:

It was a great pleasure to see you again and to have an opportunity to meet with the members of your society. I thought Dr. Ford's presentation was stimulating as well as challenging to those of us concerned with the collection, processing, and dissemination of information.

Thank you again for permitting me to substitute for Admiral Raborn at your meeting on 11 May 1966.

Yours truly,
